

Final version of the thematic report “Key Indicators for Social Inclusion and Fundamental Rights in Bulgaria”

The National Statistical Institute presents the final version of the thematic report “Key Indicators for Social Inclusion and Fundamental Rights in Bulgaria”.

This report was drafted in the framework of the Project BGLD-3.001 “Novel Approaches to Generating Data on hard to reach populations at risk of violation of their rights” under Programme “Local Development, Poverty Reduction and Enhanced Inclusion of Vulnerable Groups”, funded by European Economic Area Financial Mechanism 2014 – 2021. Bulgarian National Statistical Institute and Fundamental Rights Agency (FRA) developed the survey tool and defined the list of indicators. BNSI calculated the indicators. The Centre for the Study of Democracy (FRA’s Franet partner in Bulgaria) put together the first draft. FRA checked the indicators and provided comments and edits in various stages of drafting.
