

### Three New Home Care Centers Were Opened Under the Bulgarian Red Cross Project

In implementation of BGLD-1.001-0001 "Innovative community care models in favors of people with chronic diseases and permanent disabilities" project funded under the EEA Financial Mechanism 2014-2021, the Bulgarian Red Cross (BRC) has opened three new Home Care Centers in the towns of Vidin, Belogradchik and Montana.

The opening ceremonies of the centers were attended by representatives of the BRC management and the project management team, heads of local and regional administrations, representatives of the regional health inspectorates, as well as the teams of the respective centers.

The new centers ensures jobs for nurses and domestic assistants, each of which will provide integrated health and social care in home environment for elderly people with chronic diseases and permanent disabilities.
